Dear Eagleman Construction,

Thank you so much for your generous donation to Sean.

As you know we just undertook several projects around our home to make mobility for our son Sean much simpler and less stressful.

Thanks to the generous support of companies like yours we were able to meet our goals and get Sean the assistive devices he very much needed.

Raising a disabled child can be very difficult at times as I am sure you can imagine. It is so encouraging that there are people out there who care and want to help. We wanted to take a moment to tell you how much of a difference that makes in our lives.

Thank you again,

Sincerely,

The Steven Family
